SUBJECT: Review of Third Set of OER Publication
"International Oil Developments"

1. Attached is the third set of ten issues of "International Oil Developments" (ER IOD 75-22 through 75-31) which is part of the mandatory review request for this publication for the year 1975. CRD performed the initial review of these issues after consultation with several specialists in the DI. But, given the technical nature of the subject and variety of [Redacted] sources used, CRD is coordinating the review with the DI specialists, as we discussed earlier, to ensure that the review is complete and accurate. 2. Attached to each document is a worksheet to explain and record the review. Please return the material to us so we can study the results from your coordination and prepare the documents in final form for return to IPD. (U)

3. We realize the difficulty in getting a project such as this one reviewed, and we hope that the arrival of this third set (in a total of ~~five~~ ^{two}) will lend some momentum to the review. You will recall that we sent the first set for review to you on 8 September, and it has not yet been returned. Please return the signed document receipt for this set. (U)
